

FEMA is launching a new way to submit a request to change a property's flood zone designation - with the Online Letter of Map Change (LOMC)! If a property owner believes their property has been inadvertently included in a Special Flood Hazard Area, they may now request a change over the web, instead of by mail. Applicants can use this new website instead of the MT-1 or MT-EZ paper forms. Professional surveyors, engineers, property owners, or their designated representatives, can use this online tool to conveniently submit required documents, property information, and payment information all in one place.

This app will allow your members to better meet the needs of their customers. The benefits include:

- . Applicants may save information online and finish applying at their convenience
- . Clear and intuitive interface makes applying user-friendly
- . Eliminates time associated with the paper-based submission
- . Frequent applicants can manage multiple LOMC requests online
- . More efficient communications with LOMC processing staff
- . Applicants can check their application status in real-time

We think this tool will be valuable to the Floodplain Management Association members. We encourage you to share this information with your membership.

To learn more about this exciting new tool, visit www.fema.gov/online-lomc.

This application will be launching soon, so please look out for future notifications with specific information!

Thanks, and please do not hesitate to contact me for additional information.
